Brain Boot Camp: Secret Strategies to Become Instantly Smarter James Bannerman

This book isn't going to turn you into a genius, but you already knew that. What it will do is increase the number of genius moments in your life. You know, those amazing times when you cleverly solve a problem that others have been struggling with, or come up with a brilliant idea that makes the ordinary extraordinary.

We could all do with a touch more inner genius: The ability to see what others miss. The ability to shape an ingeniously persuasive argument. The ability to create, adapt, adjust, rethink, tweak, and polish. This is the stuff upon which amazing careers and great businesses are built.

And while we can't all be the next Einstein, Shakespeare, or Steve Jobs, we can all develop and hone our genius thinking skills.

With this book you'll be able to:

- Solve problems and dissolve obstacles
- Spot opportunities that others miss
- Win arguments with persuasive lines
- Turn the distinctly average into something truly special

Those who think creatively are given a massive advantage—in the workplace and at home—and everyone can do it, with a bit of help. This deceptively simple book will show you how.
