Higher Education Reform: Looking Back - Looking Forward (Higher Education Research and Policy)

Higher Education Reform: Looking Back - Looking Forward (Higher Education Research and Policy)

The central focus of this monograph is the concept of higher education reform in the light of an international and global comparative perspective. After decades of far-reaching reform, higher education around the world has profoundly changed and now has to face the challenges of the present. This volume takes a close look at these changes, the drivers of change, their effects and possible future scenarios. In their contributions the authors discuss a variety of basic concepts: learning and teaching in higher education; financing and quality assurance; governance change; massification vs. equity and equality; internationalization and mobility, the implementation of lifelong structures in higher education.
