People are often untruthful out of fear of negative consequences associated with divulging information, or they are untruthful to attempt to gain an advantage. But, if they are made to forget the long-term outcomes of lying, he or she can be influenced to disclose the information that's being withheld. The aim is to encourage the person to remain in short-term thinking mode, shifting focus away from the long-term ramifications of telling the truth.

It also chronicles the fascinating story of how the authors used a methodology Houston developed to elicit the truth in the counterterrorism and criminal investigation realms, and how these techniques can be applied to our daily lives. This book is complimented with the insights of Peter Romary, an internationally recognized attorney who has worked for government and private sector clients and who is an expert in applying the techniques in law, business, and negotiation.

Using thrilling anecdotes from their careers in counterintelligence, and with easy-to-follow instructions, the authors provide a foolproof means of getting absolutely anybody to give an honest answer.
