Rehabilitation (Human Brain Function: Assessment and Rehabilitation)

In this, the fourth and final volume in the series **Human Brain Function**, Goldstein and Beers outline how the different rehabilitation specialties assess brain function. Using straightforward explanations, the contributors not only cover the assessment approaches and methods used by each specialty, but uniquely expand this focus to describe evaluation and treatment planning for a variety of neurobehavioral disorders. Rehabilitation specialists and non-specialists alike will value the original scope and accessibility of this work.
