From the ashes arises the sacred lore of the North, the ancient stories and proverbial wisdom of the Odinist religion. Mighty Gods and fierce Giants battle in the never-ending struggle between order and chaos, while men seek honor and glory in the eyes of their beloved deities. After many years of research and piecing together sources, now comes the first known holy text ever presented for the Odinist faith. Giving these accounts in their true, epic form, The Odinist Edda is designed as a religious work by and for the men and women of this path. In reconstructing this sacred epic, the idea is to create a living storytelling tradition that will honor the legacy of the ancient Teutonic peoples, while providing an in-depth source of Odinist wisdom for our modern world.
