Ancient History from Coins (Approaching the Ancient World) Christopher Howgego

Like other volumes in this series, *Ancient History from Coins* demystifies a specialism, introducing students (from first year upwards) to the techniques, methods, problems and advantages of using coins to do ancient history.

Coins are a fertile source of information for the ancient historian; yet too often historians are uneasy about using them as evidence because of the special problems attaching to their interpretation. The world of numismatics is not always easy for the non-specialist to penetrate or understand with confidence. Dr Howgego describes and analyses the main contributions the study of coins can make to ancient history, showing through numerous examples how the character, patterns and behaviour of coinage bear on major historical themes. Topics range from state finance and economic policy to imperial domination and political propaganda through coins types.

The period covered by the book is from the invention of coinage (ca 600BC) to AD 400.
