Enhance relationship with your partner, discover new pleasures and explore new sensory experience

Tantric sex is a practice that has been around for a very long time, but it's finally making its way into Western culture. It was first introduced by sex therapists who wanted to help their patients grow closer together after a long period of not being intimate, and has long since been incorporated into many bedrooms across the nation. This new method of having sex focuses on both partners' emotional, physical, and mental arousal during sex. In Western culture, physical arousal is about the only thing focused upon, which can lead to a very dry, boring experience for the female partner, and sometimes the male partner, too.

Tantric sex has been proven to help partners increase their desire for sex and their **desire for one another**. It is able to bring partners closer together both in the bedroom and outside of it. Mental connection between partners is just as important as emotional and physical connections during intercourse.

So if you're looking for a way to increase your enjoyment during sexual intercourse and when you're spending free time with your partner, take a look at this book to see if it can help you!

In this book you will learn:
