Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations Janak Sodha

Unlike a traditional book, this text contains the theory of both analog and digital communication systems supported by simulations (MATLAB & Mathcad) and video lectures referenced throughout the chapters. These simulations and videos are accessed via its associated app, "Communication Systems", in the iOS and Android app stores. Samples of the book, videos, simulations and app details are available on http://book.janaksodha.com

Based on the experience of lecturing for over eighteen years, this text begins with Fourier analysis, power and bandwidth, spectral density and random processes through a linear system to provide a solid foundation for the theory to be presented in the chapters to follow. An appendix on probability theory is also included with supporting simulations. Its only by interacting with the theory through different means (mathematical theory, problems with solutions, simulations with the option to modify parameters) can one begin to gain a deeper understanding of the underlying concepts and limitations.

The author received his B.Sc. (Hons.), M.Sc. and Ph.D. from the University of Manchester, England (UK). A telecommunications research engineer with ERA Technology (UK) for two years and currently a senior lecturer at the University of the West Indies. Refer to the author's home page on http://janaksodha.com for details of his publications.

From reader reviews:

Ralph Scott:

Within other case, little individuals like to read book Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations. You can choose the best book if you like reading a book. Providing we know about how is important any book Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations. You can add expertise and of course you can around the world by just a book. Absolutely right, due to the fact from book you can recognize everything! From your country until eventually foreign or abroad you will end up known. About simple issue until wonderful thing you could know that. Some of you maybe will probably update themselves by looking at books. It is a good choice for you personally but the problems coming to an individual is you don't know which one you should start with. This Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations is our recommendation to make you keep up with the world. Why, as this book serves what you want and need in this era.

Steve Franklin:

The feeling that you get from Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations may be the more deep you excavating the information that hide inside the words the more you get thinking about reading it. It doesn't mean that this book is hard to understand but Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations giving you excitement feeling of reading. The article author conveys their point in particular way that can be understood by anyone who read that because the author of this book is well-known enough. This particular book also makes your personal vocabulary increase well. Making it easy to understand then can go to you, both in printed or e-book style are available. We suggest you for having this Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations instantly.

Angela Rodriguez:

What is your hobby? Have you heard which question when you got pupils? We believe that that query was given by teacher to the students. Many kinds of hobby, Everybody has different hobby. So you know that little person such as reading or as reading through become their hobby. You need to understand that reading is very important as well as book as to be the matter. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You discover good news or update regarding something by book.

Amount types of books that can you decide to try be your object. One of them is this Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and MathCAD Simulations.
