## **Become a conscientious prescriber!**

Using an integrated approach, this singular text focuses on patient first, helping you consider each patient as a unique individual with specific health concerns and characteristics that affect therapeutic decision making and drug efficacy.

Organized by disease state, this book will introduce you to general drug classifications and the medicinal agents most likely to be encountered in primary care settings. It encompasses the pharmacological principals, dosing, patient education, pharmacodynamics, and therapeutic parameters and indications for commonly prescribed drugs.
