Research Methodologies in Supply Chain Management

Research Methodologies in Supply Chain Management

For research in all subjects and among different philosophical paradigms, research methodologies form one of the key issues to rely on. This volume brings a series of papers together, which present different research methodologies as applied in supply chain management. This comprises review oriented papers that look at what kind of methodologies have been applied, as well as methodological papers discussing new developments needed to successfully conduct research in supply chain management. The third group is made up of applications of the respective methodologies, which serve as examples on how the different methodological approaches can be applied. All papers have undergone a review process to ensure their quality. Therefore, we hope that this book will serve as a valid source for current and future researchers in the field. While the workshop on “Research Methodologies in Supply Chain Management” took place at the Supply Chain Management Center, Carl von Ossietzky University in Oldenburg, Germany, it is based on a collaboration with the Supply Chain Management Group of the Department of Operations Management at the Copenhagen Business School and the Department of Production Management at the Vienna University of Economics and Business Administration. We would like to thank all those who contributed to the workshop and this book.

From reader reviews:

Robert Young:

As people who live in the particular modest era should be change about what going on or details even knowledge to make these keep up with the era that is certainly always change and progress. Some of you maybe will probably update themselves by looking at books. It is a good choice for you personally but the problems coming to an individual is you don't know which you should start with. This Research Methodologies in Supply Chain Management is our recommendation so you keep up with the world. Why, since this book serves what you want and wish in this era.

Roxanne Mazon:

People live in this new day time of lifestyle always aim to and must have the extra time or they will get large amount of stress from both way of life and work. So , when we ask do people have time, we will say absolutely sure. People is human not a robot. Then we question again, what kind of activity are there when the spare time coming to anyone of course your answer will unlimited right. Then do you try this one, reading publications. It can be your alternative in spending your spare time, often the book you have read is definitely Research Methodologies in Supply Chain Management.

Melvin Hayes:

Many people spending their time frame by playing outside having friends, fun activity together with family or just watching TV all day every day. You can have new activity to enjoy your whole day by examining a book. Ugh, think reading a book can actually hard because you have to accept the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Smartphone. Like Research Methodologies in Supply Chain Management which is keeping the e-book version. So , why not try out this book? Let's observe.

Jimmy Dolce:

That book can make you to feel relax. This particular book Research Methodologies in Supply Chain Management was bright colored and of course has pictures on there. As we know that book Research Methodologies in Supply Chain Management has many kinds or style. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and think you are the character on there. Therefore not at all of book are make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading in which.
