Product Focused Software Process Improvement: 6th International Conference, PROFES 2005, Oulu, Finland, June 13-18, 2005, Proceedings (Lecture Notes in Computer Science)

On behalf of the PROFES Organizing Committee we are proud to present to you the proceedings of the 6th International Conference on Product Focused Software Process Improvement (PROFES 2005), held in Oulu, Finland. Since 1999, PROFES has established itself as one of the recognized international software process improvement conferences. The purpose of the conference is to bring to light the most recent findings and results in the area and to stimulate discussion between researchers, experienced professionals, and technology providers. The large number of participants coming from industry confirms that the conference provides a variety of up-to-date topics and tackles industry problems. The main theme of PROFES is professional software process improvement (SPI) motivated by product and service quality needs. SPI is facilitated by software process assessment, software measurement, process modeling, and technology transfer. It has become a practical tool for quality software engineering and management. The conference addresses both the solutions found in practice and the relevant research results from academia. This is reflected in the 42 full papers, which are – as in the years before – a well-balanced mix of academic papers as well as industrial experience reports. The business of developing new applications like mobile and Internet services or enhancing the functionality of a variety of products using embedded software is rapidly growing, maturing and meeting the harsh business realities. The accepted papers focusing on wireless and the Internet are grouped into a special “mobile and wireless” session.

We wish to thank VTTElectronics, the University of Oulu including Infotech, and Fraunhofer IESE for supporting the conference. We are also grateful to the authors for high-quality papers, the Program Committee for their hard work in reviewing the papers, the Organizing Committee for making the event possible, and all the numerous supporters who helped in organizing this conference.

From reader reviews:

Vincent Cartagena:

Why don't make it to be your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite reserve and reading a e-book. Beside you can solve your trouble; you can add your knowledge by the e-book entitled Product Focused Software Process Improvement: 6th International Conference, PROFES 2005, Oulu, Finland, June 13-18, 2005, Proceedings (Lecture Notes in Computer Science). Try to the actual book Product Focused Software Process Improvement: 6th International Conference, PROFES 2005, Oulu, Finland, June 13-18, 2005, Proceedings (Lecture Notes in Computer Science) as your friend. It means that it can to get your friend when you truly feel alone and beside that of course make you smarter than before. Yeah, it is very fortunated for you personally. The book makes you considerably more confidence because you can know everything by the book. So , let me make new experience as well as knowledge with this book.

Emily Meredith:

Reading a e-book can be one of a lot of action that everyone in the world loves. Do you like reading book and so. There are a lot of reasons why people enjoy it. First reading a publication will give you a lot of new details. When you read a book you will get new information mainly because book is one of several ways to share the information or perhaps their idea. Second, studying a book will make you actually more imaginative. When you looking at a book especially fictional book the author will bring you to definitely imagine the story how the characters do it anything. Third, you could share your knowledge to other people. When you read this Product Focused Software Process Improvement: 6th International Conference, PROFES 2005, Oulu, Finland, June 13-18, 2005, Proceedings (Lecture Notes in Computer Science), you may tells your family, friends and soon about yours book. Your knowledge can inspire average, make them reading a reserve.

Pamela Acuna:

Playing with family in a very park, coming to see the ocean world or hanging out with pals is thing that usually you might have done when you have spare time, in that case why you don't try issue that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love Product Focused Software Process Improvement: 6th International Conference, PROFES 2005, Oulu, Finland, June 13-18, 2005, Proceedings (Lecture Notes in Computer Science), you could enjoy both. It is good combination right, you still need to miss it? What kind of hangout type is it? Oh can happen its mind hangout folks. What? Still don't have it, oh come on its called reading friends.

Kimberly Moore:

Reading a book to become new life style in this season; every people loves to examine a book. When you examine a book you can get a wide range of benefit. When you read guides, you can improve your knowledge, mainly because book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your analysis, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, these kinds of us novel, comics, along with soon. The Product Focused Software Process Improvement: 6th International Conference, PROFES 2005, Oulu, Finland, June 13-18, 2005, Proceedings (Lecture Notes in Computer Science) offer you a new experience in reading a book.
