The Easiest Way to Learn the Tarot - Ever!! Dusty White

This is the definitive guide to learning *and mastering* the Tarot quickly & easily. Unique, fun, easy-to-learn exercises teach you how to hear what the cards are trying to tell you. This is not yet another book of Tarot card meanings. **You start hands-on learning immediately**, playing with your Tarot cards as they reveal the future to you. Instead of forcing you to memorize generic "key words" that limit your interpretation of the Tarot to 78 possible meanings, this workbook has you look at the cards and see what is happening in the images, and how these pictures can show you different things at different times. This book speeds up that process and helps you have fun learning to hear what your cards are saying to you--from day one.

"Dusty White has created the perfect text-book for a tarot course whether in a class-room setting or for self-study. I have been a professional tarot card reader for over two decades: I wish *The Easiest Way to Learn the Tarot--EVER!!* had existed when I was first learning and that is the highest praise I can offer. Furthermore, even now, as an extremely experienced and well-read *tarotista*, I still received many new insights, perspectives, and information from White's wonderful book. This is a book to keep close at hand--it serves as a reference and a guide through the tarot as much as an instructional manual. I expect to return to my copy repeatedly.

The Easiest Way to Learn the Tarot--EVER!! is exceptionally well-organized, lucid, practical and extremely comprehensive but also tolerant: White appreciates that there are many varied and disparate ways to read tarot and presents readers with a wide selection. A particularly nice aspect of this book is that it may be used with any tarot deck although White recommends that beginners use a Waite-Smith or Waite-Smith derived deck--I concur--and explains precisely *why*. The book contains suggested exercises and workbook pages. Each card is discussed in depth as are a variety of spreads. This book is highly recommended for beginners and adepts alike. My only suggestion: perhaps Dusty White would like to expand this series by adding similar volumes focused on astrology and runes."
