Prepping For The Unknown

The daughter of an avid Prepper, Liz White grew up with canning and stockpiling being the norm. But little did she know that her prepping skills would soon be put to the test. Held back in Altoona, Alabama by the passing of her father, Liz and her brother Brandon are responsible for providing their mother the comfort and support she needed to carry on. Suffering from panic attacks and high blood pressure, Liz feared that her mother's stress was soon going to be too much for her. Between the death of her husband and the recurring dreams of a looming attack she always warned her children about, there was little that could bring peace back to the family. Unfortunately, things take a turn for the worst when Liz is forced to accept that the nightmares her mother believed in were slowly, but surely, becoming their reality. It soon becomes clear that there is only option left for them. Flight.

The fight to escape Altoona before SHTF takes Liz, her family and her boyfriend through the lonely woods, leaving their stockpile behind and trekking along with only their bug out bags. Two days was all it took, but even when the threat hadn't mounted yet, survival wasn't guaranteed. Will Liz and her family make it to the bunker before a full-on attack is declared? Who will survive? Who will face their demise?

Prepping for the unknown is a novel about uncertainty. It touches on the premise that even the prepared, don't quite know what they're prepping for and for those who view life as a skeptic can find themselves denying the truth even when it's staring them right in the face. Liz was that person but she soon learns that denial was a man's biggest downfall.

Take the journey with Liz White and her family as their prepping skills are tested. Even before the unknown is wholly acknowledged, survival is no guarantee.
