**Tutoriales GNU/Linux: Hacking para principiantes (Spanish Edition)** Mr. Marcelo Horacio Fortino  
Etiquetas: GNU/Linux, hacking, línea de comandos, tutoriales, administración de usuarios, sistemas de archivos, copias de backup, configuración de hardware, instalación de software, monitorización de redes, resolución de problemas, seguridad, herramientas y programación de scripts. Resumen: Una colección de tutoriales con instrucciones para la administración de usuarios, sistemas de archivos, copias de backup, configuración de hardware, instalación de software, monitorización de redes, resolución de problemas, seguridad, herramientas y programación de scripts. Un libro ideal para usar como referencia a la hora de administrar tu sistema operativo GNU/Linux. La mayoría de las definiciones de 'hacking' en el 'jargon file' del hacker Eric S. Raaymond<sup>1</sup> están basadas principalmente "en la afición a lo técnico y en el placer de resolver problemas sobrepasando los límites". La idea de este libro es capturar esa esencia mediante simples y prácticos tutoriales para que puedas comenzar a hackear tu ordenador utilizando la línea de comandos. Bienvenid@s al mundo de los hackers. <sup>1</sup>Cómo convertirse en hacker

That book was represented how does the world has grown up. The language styles that writer require to explain it is easy to understand. The particular writer made some research when he makes this book. This is why this book appropriate all of you.

#### **April Harry:**

As a pupil exactly feel bored to reading. If their teacher requested them to go to the library or to make summary for some guide, they are complained. Just very little students that has reading's internal or real their hobby. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful images on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Tutoriales GNU/Linux: Hacking para principiantes (Spanish Edition) can

make you truly feel more interested to read.
