## **Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10) S. Takahashi**

The main focus of this publication is on 'Eddy Current Testing' (ECT) to identify cracks in metals and alloys. Since the first Electromagnetic Nondestructive Evaluation (ENDE) workshop was held in London 1995, the workshops have contributed to the technical advance in ECT through competition and collaboration. ECT is put to practical use in industry now as one of the approved methods of crack detection in steels and metallic structures. Another important topic in this book is the magnetic NDE method according to the concept of NDE & Science Research Center.

IOS Press is an international science, technical and medical publisher of high-quality books for academics, scientists, and professionals in all fields.

Some of the areas we publish in:

- Biomedicine
- Oncology
- Artificial intelligence
- Databases and information systems
- Maritime engineering
- Nanotechnology
- Geoengineering
- All aspects of physics
- E-governance
- E-commerce
- The knowledge economy
- Urban studies
- Arms control
- Understanding and responding to terrorism
- Medical informatics
- Computer Sciences

### **From reader reviews:**

#### **Ruth Mahan:**

The book Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10) can give more knowledge and information about everything you want. So just why must we leave a very important thing like a book Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10)? Several of you have a different opinion about reserve. But one aim this book can give many facts for us. It is absolutely appropriate. Right now, try to closer with your book. Knowledge or data that you take for that, you could give for each other; you are able to share all of these. Book Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10) has simple shape however you know: it has great and large function for you. You can seem the enormous world by open and read a e-book. So it is very wonderful.

#### **Andrew Nixon:**

Nowadays reading books be a little more than want or need but also turn into a life style. This reading practice give you lot of advantages. The benefits you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The details you get based on what kind of reserve you read, if you want drive more knowledge just go with knowledge books but if you want feel happy read one using theme for entertaining such as comic or novel. The Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10) is kind of reserve which is giving the reader capricious experience.

#### **Dennis Bryant:**

Is it an individual who having spare time in that case spend it whole day by watching television programs or just lying on the bed? Do you need something new? This Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10) can be the respond to, oh how comes? A book you know. You are so out of date, spending your spare time by reading in this fresh era is common not a geek activity. So what these books have than the others?

#### **Leroy Raymond:**

A lot of book has printed but it is unique. You can get it by online on social media. You can choose the most effective book for you, science, comic, novel, or whatever through searching from it. It is identified as of book Electromagnetic Nondestructive Evaluation (X) (Studies in Applied Electromagnetics and Mechanics) (No. 10). You can contribute your knowledge by it. Without causing the printed book, it may add your knowledge and make you actually happier to read. It is most critical that, you must aware about e-book. It can bring you from one location to other place.
