Master of Miniatures Jim Shepard

Fiction. "As in *Nosferatu*, with its smartly imagined life of the German film director F. W. Murnau, here Shepard considers the Japanese special effects director Eiji Tsuburaya and his cinematic inventions for the science-fiction movie we know as *Godzilla*. And like many of Shepard's stories, MASTER OF MINIATURES limns the intense and alienated world of a focused expert obsessed with his field of endeavor, at a cost to his marriage and children. For Japanese survivors of Hiroshima and Nagasaki in the fifties, America itself seemed king of the monsters, to be looked at with fear and awe. This is a poignant and important story that seems to me a summation and condensation of many themes that have preoccupied Shepard before. Like a diamond held aloft, each turn of this tale in his deft hand flashes still more light"—Ron Hansen.
