VALFIERNO is a fascinating novel of intrigue based on a real event at the dawn of the twentieth century: the disappearance of Leonardo Da Vinci's "Mona Lisa" from the Louvre Museum, on August 22, 1911. The police at the time immediately suspected a group of artists who flouted their hatred of all academic painting - among them the young Pablo Picasso; and the soldier-poet Apollinaire, who was detained briefly for the crime. But time passed and the authorities found no clues about the location of either the painting or the actual thieves. Two years later, in 1913, a certain Vincenzo Peruggia was picked up in Florence with the masterpiece in his possession; yet he claimed that he had only wanted to restore it to its rightful home: Italy. Fifteen years later, someone who calls himself "the Marquis de Valfierno" cannot tolerate dying without the world knowing of his audacious exploits. And so, he decides to confide the entire truth to an American journalist.
