**3D and HD Broadband Video Networking (Artech House Telecommunications Library)** Benny Bing

Recent years have seen an exponential increase in video and multimedia traffic transported over the internet and broadband access networks. This timely resource addresses the key challenge facing many service providers today: effective bandwidth management for supporting high-quality video delivery. Written by a recognized expert in the field, this practical book describes ways to optimize video transmission over emerging broadband networks. Moreover, the book explores new wireless access networks that can enable video connectivity both inside and outside the residential premise.
