Laboratory Guide and Dissection Manual Human Anatomy (2nd Edition) Michael J. Timmons, Michael P. McKinley

Designed to accompany any human anatomy textbook, but with references to Human Anatomy, 3rd edition by Martini/Timmons/McKinley, this manual meets the needs of undergraduate and professional students enrolled in either a one-or two-term Human Anatomy course that includes mammalian and cadaver dissection as part of the laboratory experience. It combines the traditional features of a lab manual with those of a dissection guide and pictorial anatomical atlas. It shows the human body, as seen and studied in the laboratory, through a medical-quality art program that features color illustrations and color and black & white photographs of prosected cadavers, anatomical laboratory models, anatomical specimens, histology, and surface anatomy. Step-by-step procedures for accurately performing each dissection are provided for both human and cat.
